

## DREAM OF TURTLE SONG

One of my turtles died and now it's alive

Turtles are my dream

The turtle comes to life

Make me happy again

Dreams come true

Before they come out they kick their legs and arms

They're cracking open, with baby turtle inside

I see the face

Start with the face, front and then back

Out it comes from the egg the baby turtle

Hundreds, so many baby turtles

Make me feel happy

Sound of the sand

Whssssssshhhhh

The baby turtles coming out

He comes out because he's friendly

He can talk

Home is in the sand

Then into the lake

I dream about turtles in the lake

Excited sometimes, sometimes quiet

Ocean moving

Kicking her legs

excited

They feel happy

They swim together  
The waves in the lake are soft and cosy  
Reminds me of home  
The lake is moving  
Wshhhhhh the only sound  
The waves circling out  
They swim together  
Excited sometimes, sometimes quiet

They kiss  
2 turtles named Wet and Dry  
To see their mothers and fathers  
Mothers and fathers under the water  
Turtle loves the mothers and fathers

Day first and night time  
The sun is in the lake  
The sun turtle  
The sun turns the lake into sunlight  
Orange and yellow and light blue around that  
The sky is black, there are stars there, they shine  
Turtle is a new name for me  
Turtle Lady  
A water lady  
Lady of the lake  
The lake and stars is friendly  
Turtle lady is me  
I'll be a turtle lady  
I feel like inside me

In my hands  
In my legs  
My arms are strong like turtles  
I am talking about turtles  
I am learning the turtle song
