

My Paint Brush

It's just wood,
That's all people can say.
But to me it's something special,
Something I cannot throw away.
I use it to paint,
I imagine it's lucky.
I can do paintings I never thought I could.
When I was 5 it came to me
The number 5 curved on it which made it more special.
Now I am 11,
I still have it as a present.
I will always give it respect;
It's amazing what a piece of wood can do.
